

Commodore 1571 Disk Drive real hardware compatibility tests of Commodore 64 demos

1571 compatibility of following demos was tested by copying following demos from .d64 floppy disk images to real floppy disks and then running the demos on 1571. Real hardware setup: Commodore 64 PAL with 250469 Rev.4 motherboard and Commodore 1571 disk drive with 310654-03 ROM

Name of the Demo (with "The Top 100 Commodore 64 demos" ranking as voted on csdb.dk 20th August 2014)	The C-64 Scene Database ID (csdb.dk/release/?id=)	Demo behavior on a real 1571	Comment on demo behavior on a real 1571
1. Edge of Disgrace	72550	fails	Failed at the beginning – disk swapping not recognized.
3. Wonderland XII	120907	fails	Failed at the end of disk s1.
4. We are all connected	129091	runs (with some parts skipped)	Ran to the end, but 2 parts were partially skipped.
8. and 77. A Press Space Odyssey	103742	fails	Failed at the beginning.
9. Continuum	129088	runs	
10. Musik Run Stop	129090	runs	
12. Scrollwars	120908	runs	
13. Trick and Treat	112424	fails	Failed at the beginning.
14. Artphosis	112337	runs	
17. Pearls for Pigs	72553	fails (unstable)	Crashed at a seemingly random place.
19. Wonderland XI	112423	runs	
21. Revolved	115653	runs	
26. We Are New	94445	fails	Failed at the beginning.
27. Amplifire	72559	runs	
29. Serpent	129098	fails (unstable)	Crashed at a seemingly random place.
35. Another Beginning	94448	fails	Failed at the beginning.
39. Apparatus (appf1.d64)	102318	fails	Failed at the beginning.
39. Biba 3	112335	runs	
39. Vicious SID 2	112365	runs with some instability	Successfully ran to the end.
51. Still Ready	81158	runs	
62. Toxyc Taste	101511	fails	Failed at the beginning.
67. Sidelined	118375	runs	
69. Black Spark 100%	91494	fails	Failed at the beginning.
69. Too Old to Ror and Rol	115677	fails	Failed at the beginning.
97. Error 23	32411	fails	Crashed after a few parts.
98. Frontier [REU]	120458	fails	Failed at the beginning.
